Scientific and Grotesque.

Troy Times: An odd experience with he kinetoscope took place not long ago in Boston. The subject was a man eating dinner, and the film, prepared especially for the occasion, was of unusual ength, so that the whole parformance could be recorded. The man entered the com and, seating himself at a table, proceeded to cut up the food. The moins of the fork from the plate to his pis was carefully recorded until the last morsel of food had vanished. Then he trose and walked out of the room, leaving nothing on the table but bare dishes. The sories of pictures was then reversed, it showed the man entering the room valking backward. He sat down at the able, upon which there was nothing out bare dishes, and proceeded to extract food from his lips until he had liled the potato dish with potatoss and readually put together a steak on the olatier before him. Then he calmly sacked out of the room, and the waiter id likewise with the meal that the man and apparently created.

Salvation Army and the Devil.

Salvation Army and the Devil.

New York Sun: It was very poor judg-ent on the part of the Salvation Army ment on the part of the Salvation Army the other evening to burn the devil in effigy. Few distinguished statesmen over trouble themselves about such burnings, and it is questionable if the levell cares a fig for fire. In fact, the theory has been advanced somewhere that fire to the inhabitants of shoel is just like water to the people of this carrie, and that it is water that the damied demonds are most afraid of. If this is true, it is very likely that His Majestic Blazes goes out upon the fiery lake occasionally in we summer months to bob for dragons. We advise the salvationists to try the effect of water upon him, as for fire, he eats it.

FREE CURE FOR MEN.

A Michigan Man Office to Send His Dis-covery Free-Claims to be a Benefactor to Weaksard Mankind.

to Weaksned Mankind.

There is always more or less suspicion attached to anything that is offered free but sometimes a man so overflows with generosity that he cannot rest until his discovery is known to the world, in order that his fellow men may profit by what he has discovered. It is upon this principle that a resident of Kalumazoo, Mich, desires to send free to markind a prescription which will cure them of any form of nervous cebility; relieves them of all the doubt and uncertainty which such men are peculiarly liable to any form of helvous cebility; relieves them of all the doubt and uncertainty which such men are neculiarly liable to and restores the organs to natural size and vigor. As it costs nothing to try the experiment it would seem that any man, suffering with the nervous troubles that usually attack men who never stopped to realize what might be the final result, ought to be deeply interested in a remedy which will restore them to health, strength and vigor, without which they continue to live an existence of untold misery. As the remedy in question was the result of many years research as to what combination would be peculiarly effective in restore.

would seem that all men suffering with any form of nervous weakness ought to write for such a remedy at once. It seems to H. C. Olds, Box 1765, Kalamano, Meh., stating that you are not sending for the prescription out of idle curiosity, but that you wish to make use of the medicine by giving it a trial, will be answered promptly and without widence as to where information came from.

The prescription is sent free and all though some may wonder how Mr. Olds and afford to give away his discovery, there is no doubt about the offer being senuine. Cut this out and send to Mr. Olds so that he may, know how you came to write to him.

Evening Post's London manical cablegram:

The stock markets were title to-day, except for a spurt in Argentines. The settlement shows a small account; contangoes were moderate, those on Americans being 4½ per cent. Americans were dull, but closed above the lowest. Kaffirs were flat on rumored fresh capital requirements by a leading company.

The Paris bourse was firm.

The Berlin market was steady, but it is still disorganized by the new bourse rules.
